# ● Notre-Dame

**BUY PACK 6 SEEDS**

● White widow x Power Plant x Grapefruit

A special dedicace to Marseille'people !!

P. P. Grape mother is well known in the city after spinning over a decade in the streets, particularly in Notre-Dame de la Garde quarter where she's a legend. This homemade champion with aphrodisiac virtues had been crossed with our very special White Widow proven male, bringing the famous high of his Brazilian roots to create a fantastic new genetic, particularly potent. Really a masterpiece ! Great producer, you can aim records with her, even for novices. Large dense long colas full of crystals are the brand of Notre-Dame. Very fruity smell will invade your room, use carbon filters, please. You can recognize her immediately, Grape and raspberry flavors are divinely mixed, sour with agrumes notes and an Afghani background which makes her unique. Leaves turn to purple with cold temperatures with this tall princess, and resin extraction gives you a very powerfull hash, the best i ever extracted. Most of all, this beauty stimulates your libido and appetite, be carefull !

Greats Sativa influences, combination of genetics from all over the world (Brazil, India, South Africa, Afghani, BC Columbia) make Notre-Dame a fabulous reference of what Cannabis should be !

To own absolutly !

Father	White widow	Mother	Power Plant x BC Grapefruit
% Indica	25%	% Sativa	75%
Harvest time	9 weeks	Yield	600 g/sqm
Taste / Odor	Grape, Raspberry, Grapefruit, Agrumes, Hash	Effect	Aphrodisiac, Energising, Aperitive
THC level	Very High	Influence	Mostly Sativa

# ● Mandela Kush

**BUY PACK 6 SEEDS**

● OG Kush x Bubba Kush x PowerPlant

Warning ! This one is absolutely not for lil' smokers...

Mandela Kush is the most vigorous genetic from RegularSeed's. Meeting of these extremes is a real explosion. This is an evident cross between our strongest female, a couchlock homecrossed Indica Kush, and our Sativa PowerPlant champion male. Sublimate Kush genetics with South African' so powerful Sativa effects of the PowerPlant was a dream...and the result of this union revealed above all fantasies.

You can expect a heavy yield, more than 500g/square meter, of long and dense colas, hard like stones. All phenos are big producers, flavor cheptel rich and various, from agumes to tropical or coffee. Some seeds are enormous and all are above standard size, germination is very fast, then the perfect mix of the parents properties makes a strong plant, cold and heat resistant. Resinous tasty hard buds of this plant makes her a Business reference .

The high of his special male parent instantly goes up shaking your head as you begin to fall KO...just the time to enjoy the subtil mix of various fruity tastes, from agrumes to tropical with coffee flavour background, according phenotypes. With this F1 cross of two such opposite strains, possibilities are infinite; chose your champion...if you can chose only one!

Father	PowerPlant	Mother	OG Kush x Bubba Kush
% Indica	40%	% Sativa	60%
Harvest time	8 - 9 weeks	Yield	500 g/sqm
Taste / Odor	Agrumes, Orange, Tropical, Coffee	Effect	Couchlock, Uplifting
THC level	Very High	Influence	Mostly Sativa

# ● Veteran Sativa

**BUY PACK 6 SEEDS**

## ● Jack the Ripper x AK47 Cherry

The perfect union of certainly the best Sativa genetics in the world. Especially released for Sativa lovers, this F1 hybrid declines in multitude of savors, from particular sour Lemon fragrance of Jack the Ripper to the sugared cherry flavour of our special AK47 Cherry mother.

When we saw results from the JTR male with Agent Lemon, we knew we had to cross it with "Cherry", to get a superior sativa genetic. We hoped a fruity Sativa, like Haze influences can produce, we got more...this one is definitely a delight! The High is peacefull, due to the AK influences, you can think you're in a Cartoon at first smoke. Effect is longlasting, psychedelic with peacefull feeling, motivation and creativity guaranteed.

F1's magic offered a marvelous new genetic, not only because of the powerfull and amazing tastes of its smoke, but because of the diversity you can find with very homogeneous phenos. Each plant makes you discover different flavor, and all the panel of sativa's effects this hybrid can purpose...Cornelian choice to keep only one, but what a luxury situation, isn' it? A modern Sativa-like plant, with hard buds and long narrows light green leaves, which you can hope 500g/sqm using SOG or SCROG with, very easy to grow for a Sativa and doesn't need more than 9 weeks to mature. Already a legend.

Father	Jack the Ripper	Mother	AK47 Cherry
% Indica	10%	% Sativa	90%
Harvest time	9 weeks	Yield	600 g/sqm
Taste / Odor	Cherry, Mint, Agrums	Effect	Sativa, Uplifting, Psychedelic, Cerebral, Motivatingl
THC level	High	Influence	Mostly Sativa

# ● Agent Lemon

**BUY PACK 6 SEEDS**

## ● Original Agent Lemon x Jack the Ripper

Original Agent Lemon was found among a large Agent Orange selection. An unique genotype owning this rare powerfull Mr Clean fragrance of Jack the Cleaner ,but also the devastating high Jack the Ripper is famous for. More than a surprise, truely a gift from heaven such fabulous patrimonies in a short Sativa dominant plant. Scent is incredibly lemony, agressive we can say. Many guys who tasted smoke nothing else anymore so much they're in loved with. After multiples solicitations, we had to purpose Agent lemon under seedform, making it available for all. One of the first projects of REGULAR SEED'S.

Better than backcrossing, we performed multiple selection sessions with Jack the Cleaner and Jack the Ripper to find a male partner with same lineage characters, to get a pure F1 with more intrinsec properties of Original Agent Lemon possible. A perfect one was finally found, sour, very lemony, productive and fast flowering JTR with whom union turned out most relevant :

An outrageous Lemon smell Sativa which behaves like an Indica, short and seeming an airy Christmas tree, colas look like spare heads, very compact and resinous as snow was fallen on. Leaves are light geen and you can reach a great yield with topping method, every bud becoming a principal bud, very easy to grow. Heat resistant, red spiders casualties resistant, Agent Lemon tolerates humidity and dryness, and is endowed of a great rooting capacity. This strain is a treasure for all growers and breeders.

Sativa's high is instantaneous, you may sweat with violent genotypes, then giving way to a longlasting relaxation sensation. Peoples told me they dream every night when using her daily. Taste is sweet afghan, very fresh. We're very proud to pass on this legacy today.

Fast flowering	Fast flowering	Father	Jack the Ripper
Mother	Original Agent Lemon	% Indica	35%
% Sativa	65%	Harvest time	8 weeks
Yield	500 g/sqm	Taste / Odor	Lemon, Mr Clean
Effect	Cerebral, sweatness, Carefree	THC level	Very High
Influence	Mostly Sativa		

# ● White Queen

**BUY PACK 6 SEEDS**

● NYC Diesel x Orange Bud x White Widow

Years ago, we reached to obtain natural pollen from our precious NYCD, after long months of bloomtime, and used it to pollinate a very tasty'n'hashy Orange bud female. This treasure named Orange Diesel has been kept for longtime by all our brotherhood, as the lethal weapon when really needing something "hard". This F1 creation we're proud to introduce add the vigor and the psychedelic effect of White Widow to the heavy stone produced by Orange Diesel. Please be careful, this can't be a daily smoke even for a Rastaman, but a jewel for hard marijuana aficionados. Didn't call her Queen for nothing! Mostly Sativa, she agrees all growing ways, SCROG, SOG, topping, don't be impatient to harvest, she increases her yield two last weeks. Some plants can be totally white at times, yield is very honorable for outrageously sticky buds you always can ask the best price. Smells like spicy bitter agumes and Diesel, let a great hash taste in mouth, extractions are of most subtle. A must have from REGULAR SEEDS.

Father	White widow	Mother	NYC Diesel x orange Bud
% Indica	30%	% Sativa	70%
Harvest time	9 weeks	Yield	450 g/sqm
Taste / Odor	Diesel, Agrumes, Bitter orange	Effect	Couchlock, Psychedelic, Analgesic
THC level	Very High	Influence	Mostly Sativa

# ● Cacao Kush

**BUY PACK 6 SEEDS**

## ● Bubba Kush x Purple chocolate CBD

A crossing session with OG Kush and Pineapple Kush produced an unique genotype amongst others, with a very high CBD level and strong chocolate smell. This purple weed revealed to be a fantastic pill to sleep preparation. This strain relaxes muscles and body with CBD/THC ratio >1, and taste is particularly different of other weed, like a Chocolate cigare. Those medical virtues were combined with well known Bubba Kush ones of our Indica male in order to offer a pure medicinal strain for people suffering from insomnia or sleep troubles.

Essentially Indica, this is a very vigorous plant, short and bushy, with large dark green leaves and long compact buds, which will be often purple whatever temperature. Strong chocolate smell, with coffee variations according phenos, Cacao Kush flourish at 20°C and doesn't need many fertilizers, drinks a lot but eats a little. After a short growing time due to her spectacular rooting abilities, you can get a great yield with few efforts, perfect for novices. With good ventilation, 500g/sqm is a standard for Missis.

With this Kush, everyone on Earth can sleep as a new born kid !

Fast flowering	Fast flowering	Father	Bubba Kush
Mother	Purple chocolate CBD	% Indica	90%
% Sativa	10%	Harvest time	7 - 8 weeks
Yield	500 g/sqm	Taste / Odor	Chocolate, Cacao, Coffee
Effect	Helps against insomnia, Sleep troubles, muscular relaxation	THC level	High
CBD Level	Very High	Medicinal virtues	Yes
Influence	Mostly Indica		

# ● Sour Power Plant

**BUY PACK 6 SEEDS**

## ● Original Agent Lemon x Power Plant

When Power Plant meets Agent Lemon...

An explosion of flavors, for all Sativa lovers who like lemon. We'll no longer introduce Agent Lemon, its extreme smell can be recognized between thousands. Marrying with our sour agrumes Power Plant male generated the pure delight we hoped; she's so fresh! Lemon main flavor is gorgeous in this version by multitude of agrumes fragrances, orange, mandarine, and at times you will find particular sour grapefruit pheno, which is also sensational. Effect is very Sativa, and can be perfect when you need something energizing, motivating as well as escape-minding.

Great yields once again, can tolerate high temperatures if you don't abuse of course and lows ones, due to the different patrimonies of ancestors, very long dense colas when cleaned well after apex. Outdoor as Indoor, Sour Power Plant will be a precious ally to get marvelous harvest of high quality weed. This Power Plant's evolution will make you feel in summer everyday!

Father	PowerPlant	Mother	Original Agent Lemon
% Indica	20%	% Sativa	80%
Harvest time	8 - 9 weeks	Yield	500 g/sqm
Taste / Odor	Lemon, Sour, Agrumes, Grapefruit, Mandarine	Effect	Energising, Escape-minding
THC level	Very High	Influence	Mostly Sativa

# ● Bubba Haze

**BUY PACK 6 SEEDS**

● Jack Herer x Cannalope Haze x Bubba Kush

A three way hybrid which was only thought to create the most relaxing strain possible.

Bubba Haze is a real stresskiller, perfect for chilling at home or escaping from anxiety. The high THC level requires precaution when smoking, even if effect is progressive, a long wellness feeling as in your head as in your body. All connoisseurs who know parents can understand! Motivating and cerebral virtues from the hazy legacies are here followed by this long body relaxation Bubba Kush is the keeper.

Yield is above average, the plant grows not like a giant Haze, but bushy with hard little balls all along the branches, full of white resin. Germination is very fast, nevertheless this Beauty will need some know how to get the quintessence of her potential. Strong coffee taste under old fashioned spicy afghanica flavors, jasmin and some melon touch, Bubba Haze is a true medicinal use plant.

Fast flowering	Fast flowering	Father	Bubba Kush
Mother	Jack Herer x Cannalope Haze	% Indica	75%
% Sativa	25%	Harvest time	8 weeks
Yield	550 g/sqm	Taste / Odor	Melon, Coffee, Jasmin,
Effect	Relaxing , Meditative, Wellness	THC level	Very High
Medicinal virtues	Yes	Influence	Mostly Indica

# ● Pineapple Bubblegum

**BUY PACK 6 SEEDS**

## ● Bubblegum x Pineapple Kush

New sensations for BubbleGum' aficionados. Simply delicious ,our Pineapple Kush elite clone carries here all necessary freshness to create an hybrid whom only objective is TASTE. Pineapple flavor is dominant, and association with BubbleGum delivers to lucky guys who grow it a pure candy! This genetic also surprised us with its therapeutic properties, ideal to fight against anxiety and stress. Effects are sweet and progressive, pot is ideal to share in society, you can only expect good time and happy mood.

Purple leaves influence of Pineapple Kush mother are present on some genotypes, which taste is the fruitiest on. Don't hesitate to keep summits far from your lamp indoor, 60cm is ideal, and prefer an environnement not too dry. Ready to harvest after 8 weeks of bloomtime, expect great yields of large sharp buds covered of crystal. Hash you could also extract from would be very sweet with a little stone effect.

A really heart stroke for us.

Fast flowering	Fast flowering	Father	Bubble Gum
Mother	Pineapple Kush	% Indica	60%
% Sativa	40%	Harvest time	8 weeks
Yield	500 g/sqm	Taste / Odor	Pineapple, Caramel ,Vanilla
Effect	Decontracting, Relaxing, Euphoric	THC level	High
Influence	Mostly Indica		

# Banana Bubblegum

**BUY PACK 6 SEEDS**

## ● Bubblegum x Strawberry Banana

Another gift for Bubble'Community.

Our Banana pheno is impressionant, you seem to be in a ripe bananas plantation when smelling a dry bud! Kush influence was too much dominant with this clone, to can be appreciated all day long without being a zombie, so we naturally included it into the BubbleGum project. As Banana already had bubble origin in its genetic patrimony, issue of this F1 cross made no doubt for us: a very uniform variety, robust, kushy just enough, and producing big white buds of what a Banana bubblegum could be as weed form. Smoke is thick, effect is particularly Indica and ideal to finish a workday quietly, few Sativa mental properties are relaxing too. At least 60 days are requiered to get brown trichomes, experts will apreciate to degust this one really finished, the ripe banana taste so comes to mingle with afghani hash flavor. Main head with 4/5 branches or SOG are best ways to increase yield more again.

Father	Bubble Gum	Mother	Strawberry Banana
% Indica	80%	% Sativa	20%
Harvest time	8 - 9 weeks	Yield	600 g/sqm
Taste / Odor	Ripe banana, Bubblegum, Afghani	Effect	Kushy
THC level	Very High	Influence	Mostly Indica

# ● French Bubblegum

**BUY PACK 6 SEEDS**

## ● Bubblegum x Grapefruit

Our BC Grapefruit pheno brings subtil fresh tones to the BubbleGum project. Sometimes grape, others grapefruit or grenadine, you can also find typically wine pheno...there's really something french, with her!

One more time, expect a hard yield from this one. SCROG is perfect to increase yield, and she's one of the easiest plants to grow. Buds are very dense on a little christmas tree, even beginners can reach a high harvest in 7/8 weeks. She doesn't need long growing time, due to her rooting ability from a short indica heritage. Fastest genos are ready in only 45 days, this is a strain you'll prefer cut early, keeping this fresh smell of summer in your weed.

French Bubblegum can be the daily smoke for all who like sweet smoke, in a spirit of relaxation and wellness; only good vibes with her, carefreedom and happy mood. Tell you a secret....Ladies love her!

Fast flowering	Fast flowering	Father	Bubble Gum
Mother	BC Grapefruit	% Indica	90%
% Sativa	10%	Harvest time	7 - 8 weeks
Yield	500 g/sqm	Taste / Odor	Grenadine, Bubblegum, Wine, Grape
Effect	Sweet, Recreative, Wellness	THC level	Medium
Influence	Mostly Indica		

# ● Lemon Bubblegum

**BUY PACK 6 SEEDS**

## ● Original Agent Lemon x Bubblegum

I have to confess that only reason which motivated me for this project was...my own pleasure. Create a true candy from Agent Lemon was just possible with Bubblegum union. Our proven male brought Lemon female the exact dose for becoming. Really a perfect mix of aromas, like an acidulous candy. A little couchlock follows an euphoric excitation, as a fresh hash taste stands in your mouth, prepare to rediscover Bubblegum.

Grows like an Indica, with dense sharp buds, as white on as light green in, this strain is like many of REGULAR SEED'S varieties very resistant under all climates; a security for novice growers, as good as its propensity to limit red spider casualties. From 49 to 56 days bloomtime, cut early for a very fruity pot or let mature one more week fore more couchlock effect and more matured taste. Only danger with Lemon BubbleGum is becoming addict!

Fast flowering	Fast flowering	Father	Bubble Gum
Mother	Original Agent Lemon	% Indica	75%
% Sativa	25%	Harvest time	7 - 8 weeks
Yield	450 g/sqm	Taste / Odor	Sugared Lemon, Sour Lemon, Bubblegum
Effect	Stone	THC level	Very High
Influence	Mostly Indica
